Certifications

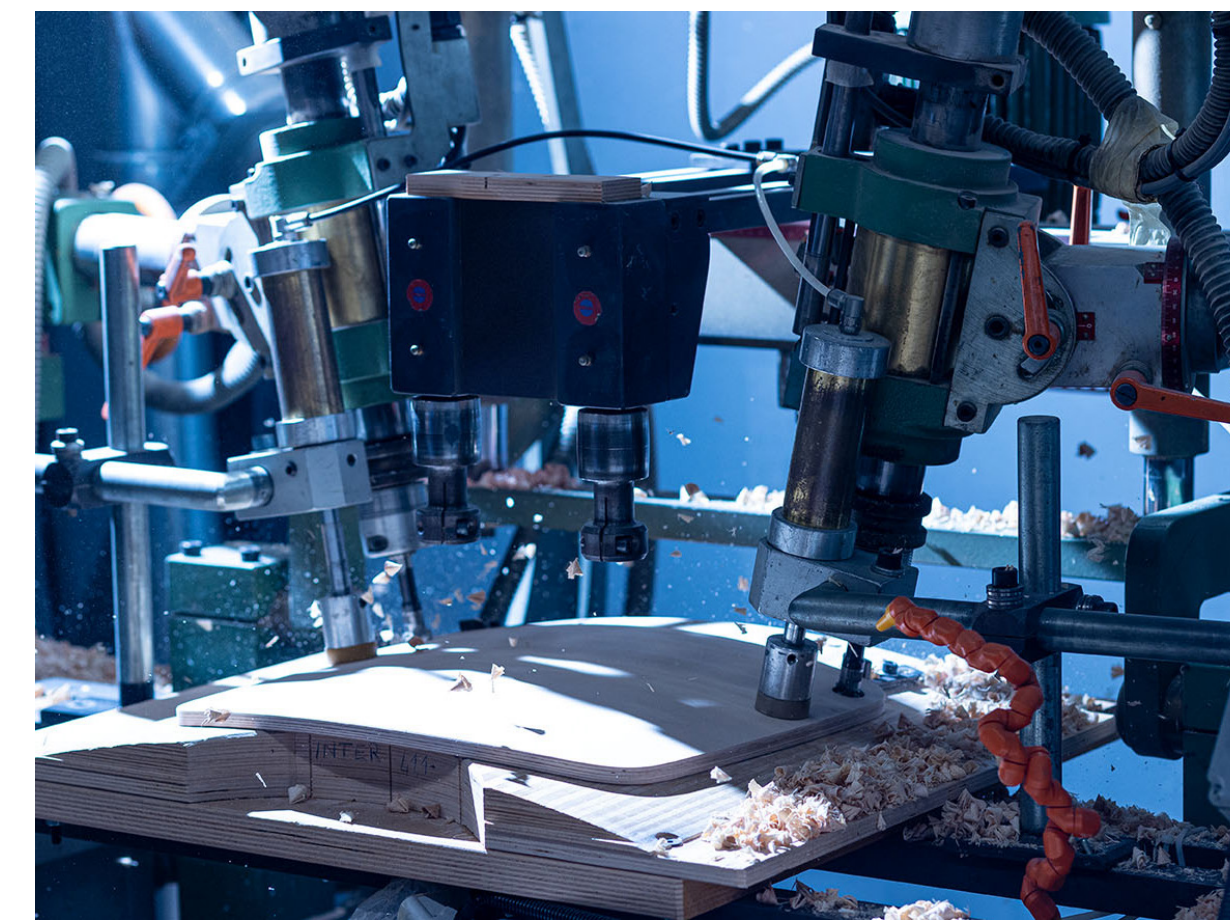

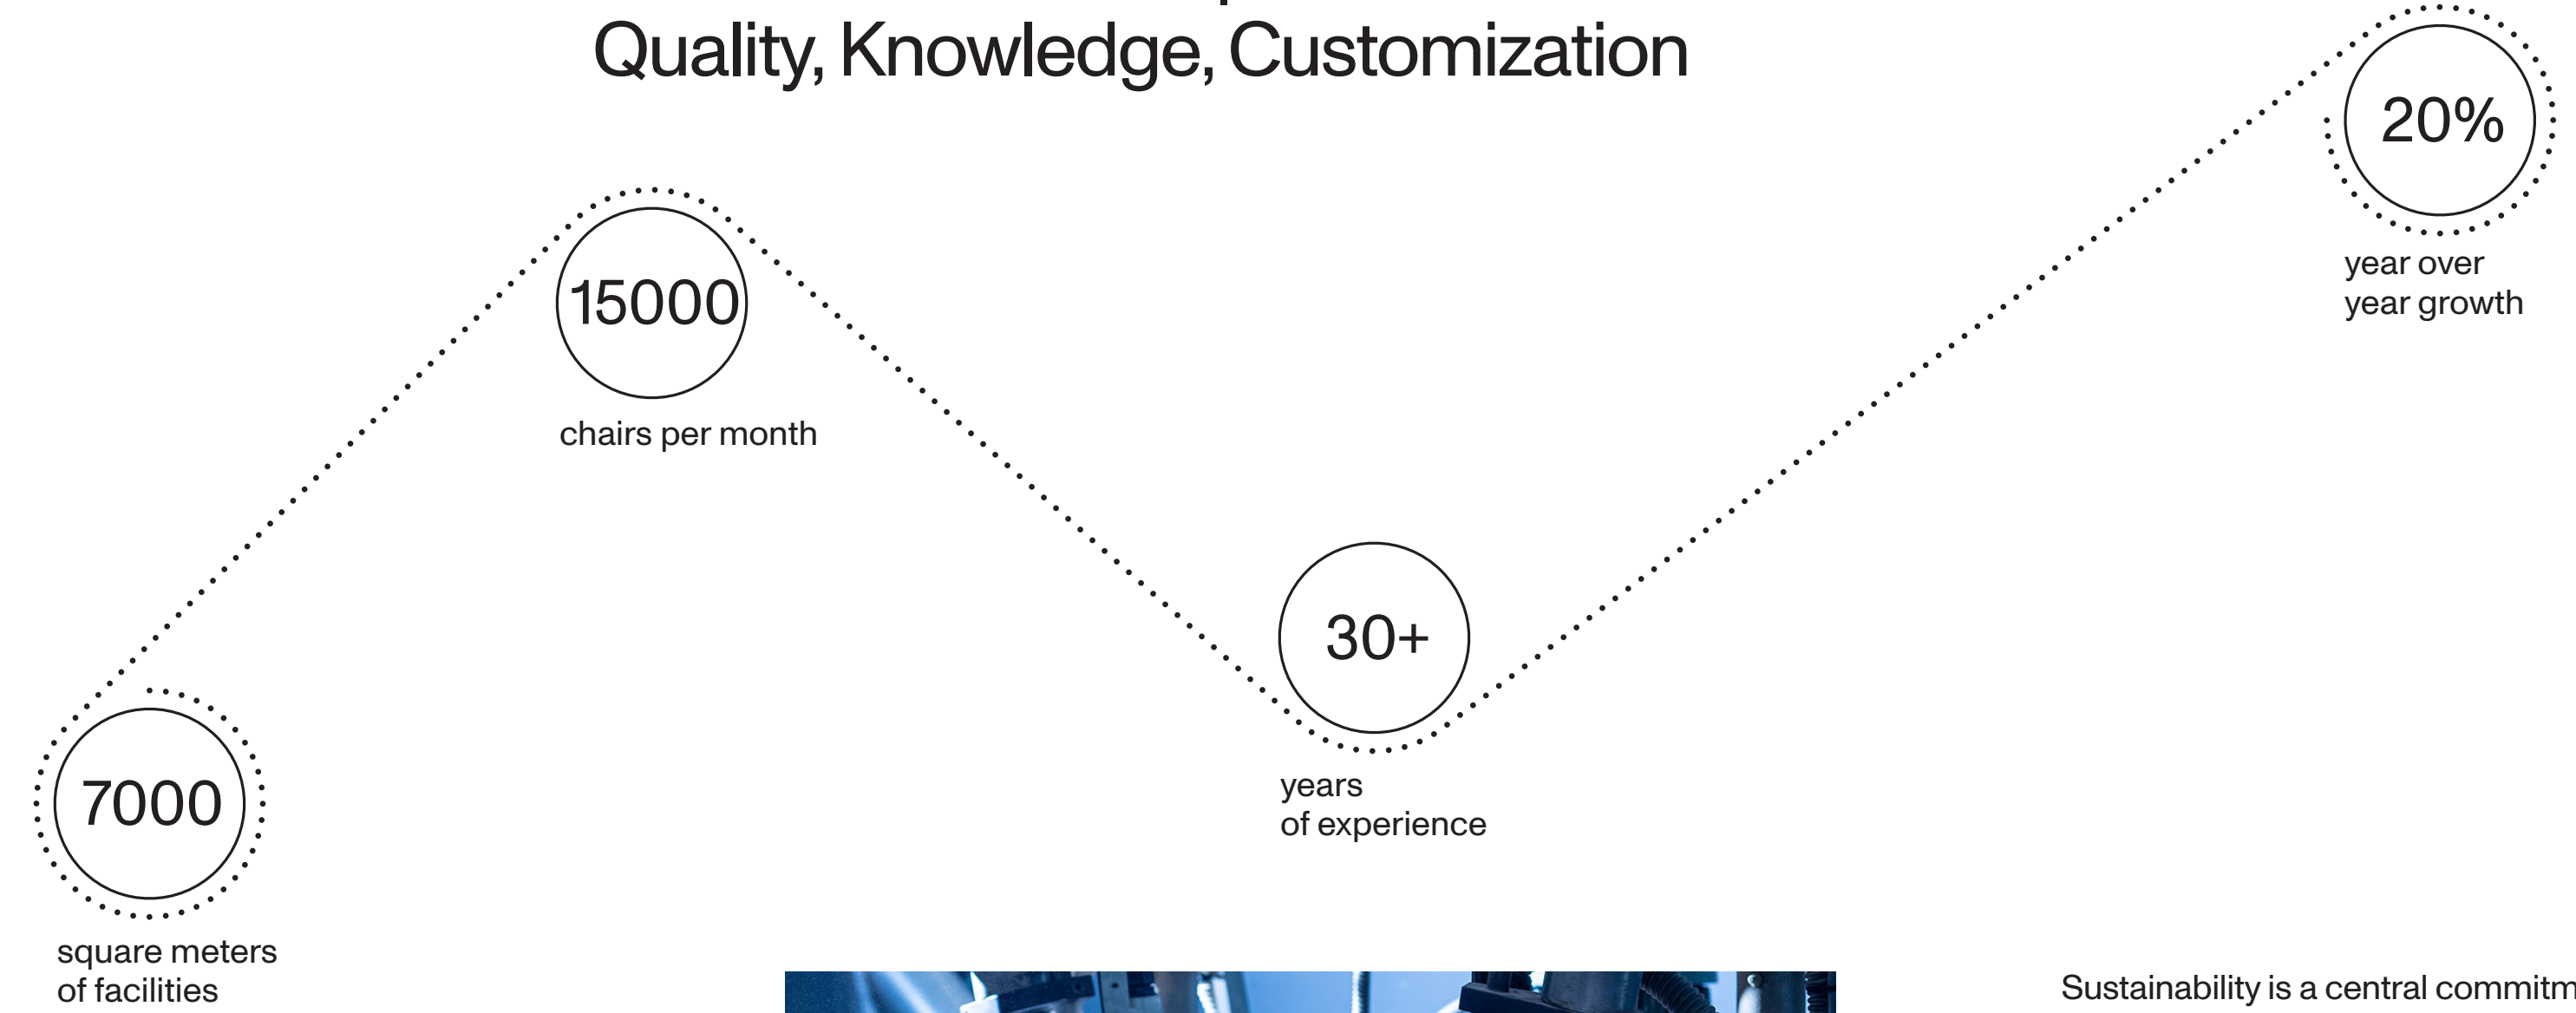

Piani is an Italian furniture company with over 30 years of experience, combining artisanal skill with modern technology to create timeless, functional pieces. Based in a region renowned for its chair-making heritage, Piani has become a trusted partner for international companies across the hospitality, contract, and design sectors, specializing in B2B solutions tailored to each client's needs. We emphasize quality, adaptability, and reliability in every custom-made product we create.

Our craftsmanship, grounded in heritage, is enhanced by advanced industrial techniques that produce furniture with enduring value. Each piece is designed with simplicity, functionality, and durability in mind, meeting the highest standards, including ISO 9001 for quality management, FSC® certification for sustainable wood (upon request), and CATAS testing for resilience and safety. This dedication ensures that Piani products remain relevant across trends, offering lasting quality and value.

Bespoke Seating for your business

Our Core Values: Experience, Quality, Knowledge, Customization

Sustainability is a central commitment at Piani. Our operations are certified to UNI EN ISO 14001 standards, focusing on waste reduction, emission controls, and efficient use of resources. In alignment with the UN's Sustainable Development Goals for 2030, we are working to minimize our carbon footprint and expand our use of renewable energy. Our sourcing of FSC®-certified wood allows us to support eco-conscious design, meeting the growing demand for sustainable solutions in today's market.

Sustainability Commitment

At Piani, client relationships are partnerships. We prioritize open communication and practical problem-solving, fostering trust and long-term connections with every B2B client. Our production process combines the flexibility of small-scale custom work with the precision of industrial manufacturing. Managed by a hands-on team from prototyping to delivery, our approach supports extensive customization, allowing clients to select finishes, colors, and dimensions that suit their spaces. Piani is a reference point for quality, customization, and sustainable growth in the furniture industry, creating products that both inspire and endure.

Client Relationships Built on Trust and Partnership
